Technical Data Sheet

Product Name	1,4-Butanediol
Synonyms	BDO
CAS No	110-63-4
Molecular Structure	
Specification	Product quality index: Q/320116LXHG01-2008 Purity (%) : 99.5min Water content (%) : 0.03max Chromaticity(25℃) (APHA) : 0.03max
Application	BDO(1,4-butanediol) is a basic chemical and fine chemical raw material, widely used in the production of engineering plastics and fibers, such as: PBT, elastic fibers, tetrahydrofuran (THF), poly tetramethylene ether glycol (PTMEG), UP, solvent areas, and the pharmaceutical and cosmetics industries. 1,4 - butanediol can also be used to produce N-methyl pyrrolidone (NMP), adipic acid, acetal, maleic anhydride, 1,3 - butadiene and chain accelerator of linear UP.
Hazard Class	Non-dangerous goods
Packing	In 200kg Net Drum
