

## Technical Data Sheet

Product Name	Disposable Puppy Pad			
Specification	Size	Net weight/pc	SAP	Package
	40*60cm	20g---60g (or more)	2g	10pcs/bag;10bags/ctn
	60*60cm	35g---50g (or more)	3g	10pcs/bag;10bags/ctn
	60*90cm	45g---120g (or more)	4g	10pcs/bag;10bags/ctn
	60*120cm	45g---140g (or more)	5g	10pcs/bag;10bags/ctn
	80*180cm	45g---160g (or more)	6g	10pcs/bag;10bags/ctn
Application	<p>1) High quality non-woven fabrics as top layer is clean and dry. Cotton fabric feeling and soft</p> <p>2) The absorbing layer is composed of fuzz pulp coated by toilet paper and high polymer absorbing resin. High polymer absorbing resin can absorb liquid 150 times larger than its volume</p> <p>3) The bottom film is high quality flow casting film, never leaking water. It effectively prevents clothing dirty due to liquid spilling and penetrating, and keeps the place around dry and clean</p> <p>4) Capable of absorbing urine and other liquid for many times, so as to keep pad surface dry and comfortable</p> <p>5) Can absorb quickly foul odor, and keep the air in pet room fresh</p>			
Structure	<p>1.Top sheet (non-woven fabric),keeps dry and comfortable</p> <p>2. Second layer (soft tissue paper),to fix the fluff well.</p> <p>3.Third layer(Sweden fluff pulp with Japan SAP),assures high absorbency.</p> <p>4. Forth layer(soft tissue paper paper), to fix the fluff well.</p> <p>5. Bottom layer(PE film which is waterproof), guarantees the cleanliness of the bed.</p>			
Quantity /40'FCL	<p>5000-8000kgs/20'FCL</p> <p>14000-20000kgs/40'HQ</p>
