## Technical Data Sheet

|                          |                                                                                                                                                                                                                                            |                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <b>Product Name</b>      | Casein (food grade, industrial grade)                                                                                                                                                                                                      |                                                                                      |
| <b>Specification</b>     | Protein: 92.00% min<br>Moisture: 12.00% max<br>Ash: 2.00% max<br>Fat: 2.00% max<br>Acid: 45° T max<br>Arsenic: 0.0002% max<br>Heavy metal(pb): 0.002% max<br>Coli bacterium: 40/100g max<br>Salmonella: N/D<br>Total plate count: 30/g max |                                                                                      |
| <b>Application</b>       | Dairy industries: coffee mate, babies' milk powder, Non-dairy powder milk essence, etc.<br><br>Industrial chemistry: casein glue, protein glue, leather soften, leather painting, paper making, latex gloves, textile, etc                 |                                                                                      |
| <b>Hazard Class</b>      | Non-dangerous goods                                                                                                                                                                                                                        |                                                                                      |
| <b>Packing</b>           | 25kg/bag                                                                                                                                                                                                                                   |  |
| <b>Quantity / 20'FCL</b> | 19MT                                                                                                                                                                                                                                       |                                                                                      |
