## Technical Data Sheet

|                            |                                                                                                                                                                                      |                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <b>Product Name</b>        | Stevia                                                                                                                                                                               |                                                                                      |
| <b>Synonyms</b>            | Steviosin ; Beta-d-glucopyranosylester                                                                                                                                               |                                                                                      |
| <b>CAS No</b>              | 57817-89-7                                                                                                                                                                           |                                                                                      |
| <b>Molecular Structure</b> |                                                                                                    |                                                                                      |
| <b>Specification</b>       | Appearance: White to Pale Yellow Crystalline Powder<br>Melting Point: 198°C<br>Refractive Index : -39.3 ° (C=6, H2O)<br>Storage Temp. : 0-6°C                                        |                                                                                      |
| <b>Application</b>         | Stevioside is 200-300 times sweeter than sucrose which is usually used in food, beverage, medicine, daily necessities, table sweeteners which does not cause microbial fermentation. |                                                                                      |
| <b>Hazard Class</b>        | Non-dangerous goods                                                                                                                                                                  |                                                                                      |
| <b>Packing</b>             | 25kg/drum                                                                                                                                                                            |  |
| <b>Quantity / 20'FCL</b>   |                                                                                                                                                                                      |                                                                                      |
