## Technical Data Sheet

|                            |                                                                                                                                                                                  |                                                                                      |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <b>Product Name</b>        | Tetra Potassium Pyrophosphate                                                                                                                                                    |                                                                                      |
| <b>Synonyms</b>            | TKPP; Potassium Diphosphate                                                                                                                                                      |                                                                                      |
| <b>CAS No</b>              | 7320-34-5                                                                                                                                                                        |                                                                                      |
| <b>Molecular Structure</b> |                                                                                                 |                                                                                      |
| <b>Specification</b>       | K4P2O7: 96.0% min.; P2O5: 41.7% min.; Orthophosphate(PO4) : 3.0% max.; PH (1% solution) : 10 - 10.5; Loss on ignition: 1.0% max.; Water insolubles: 0.1% max.; Iron: 50 ppm max. |                                                                                      |
| <b>Application</b>         | Used in electroplating, dyeing, and etc.                                                                                                                                         |                                                                                      |
| <b>Hazard Class</b>        | No                                                                                                                                                                               |                                                                                      |
| <b>Packing</b>             | 25 kgs plastic woven bags                                                                                                                                                        |  |
| <b>Quantity /20'FCL</b>    | 25Mts                                                                                                                                                                            |                                                                                      |
