KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product Name	Vitamin K3(MSB)/ Vitamin K3(MNB)	
Synonyms	2-Methylnaphthoquinone; Menadione; 2-Methyl-1,4-naphthoquinone	
CAS No	58-27-5	
Molecular Structure		
Specification	Appearance: white crystalline powder Melting Point: 105-107 °C (lit.) Water Solubility : insoluble Storage Temp.: store at RT.	
Application	Vitamin K3 (MSB, MNB) can be used as raw material of feed additives. It is hemostat which can promote composition of plasmozyme in liver of livestock.	
Hazard Class	Non-dangerous goods	
Packing	25kgs/ctn	
Quantity / 20'FCL
