KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product Name	Vitamin B12 (USP31 BP2005, Enterprise Standard)	
Synonyms	Anacobin; Berubigen; Betalin-12; Betalin12 crystalline	
CAS No	68-19-9	
Molecular Structure		
Specification	Appearance: cardinal crystalline powder or amorphous powder Melting point: >300°C Water solubility: Soluble	
Application	Vitamin B12 is mainly used to treat megaloblastic anemia, malnutrition, blood loss anemia, neuralgia, etc.	
Hazard Class	Non-dangerous goods	
Packing	25kgs/drum, 1kg/tin	
Quantity / 20'FCL
