KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product Name	Pyridoxine(VB6)	
Synonyms	Bioepiderm; Biotin	
CAS No	8059-24-3	
Molecular Structure		
Specification	Appearance: colorless to almost colorless crystalline powder Melting Point: 232-233℃ Water Solubility : 0.2 mg/mL	
Application	Pyridoxine can be used as processing agent in food industry according to GB2760-90. It can prevent skin disease, promote lipid metabolism and other physiologic function.	
Hazard Class	Non-dangerous goods	
Packing	25kgs/drum	
Quantity / 20'FCL
