KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product Name	HESPERIDIN	
Plant Origin	<i>Citrus Aurantium L.</i>	
CAS No	520-26-3	
Part Used	FRUIT	
Specification	90%MIN, 95%MIN , 98%MIN	
Application	<p>Hesperidin is a bioflavonoid. Bioflavonoids are water-soluble nutrients that are found in some fruits -- especially citrus -- and various leafy green vegetables.</p> <p>Hesperidin, along with other bioflavanoids, can improve the health of capillaries and connective tissues. Because of this, it has been noted to help with bruising, varicose veins, and fragile capillaries.</p> <p>Other benefits include a purported ability to alleviate hay fever and other such allergies. Some studies suggest bioflavanoids like hesperidin and quercetin do this by inhibiting the release of histamine.</p>	
Hazard Class	Non-dangerous goods	
Packing	25KGS/DRUM	
Quantity /20'FCL
