Technical Data Sheet

Product Name	Tris(2-carboxyethyl)phosphine	
Synonyms	TCEP;AURORAKA-1645;PHOSPHORICACIDTRIS(2-CHLOROETHYL) ESTER	
CAS No	115-96-8	
Molecular Structure		
Specification	Acid Value (mg KOH/g)<0.3 Density (20°C, g/cm ³) 1.41-1.43 Phosphorus content (wt. %)10.8 Chlorine Content (wt. %)35.6	
Application	TCEP is a general purpose chlorinated phosphate ester flame retardant used in rigid polyurethane foams, whose superiority is demonstrated in high stability and low cost. It is recommended as flame retardant for block foam or slab foam, and as flame retardant or additive for rigid polyurethane foams and oil.	
Hazard Class	Non-dangerous goods	
Packing	250 kg in iron drum	
Quantity / 20'FCL	20mts
